

Technical sheet

Standard coco growslab

mix aiR

Product description

Item GH L # : 120-0202002600 (washed)

- **Size** (expanded) : 100 x 18 x 13 cm (23.4 L)
- Material from by-product of coconut production
- Environmentally friendly and renewable substrate
- Stable properties and slow material decomposition
- White poly bag (black inside), 4 mil, UV treated (3 years)

- **Washed** (low salt and phenolic compounds, starting EC 3 (±1) mS/cm) with **4 pre-cut drain holes**, so ready to plant as soon as filled with water

- A **mix** of fine (peat) and coarse (chip) particles, increasing **air retention**
- Recommended for **soilless vegetable cultivation** with more pronounced **root oxygenation** need
- **Options on request:**
Pre-cut planting holes

Physical properties at pf1

mix aiR	air %: 23	water %: 45	substrate %: 32
---------	-----------	-------------	-----------------

Expansion rate	1 : 4
Compressed density	440 kg / m ³
Bulk density	110 kg / m ³
Total porosity	68 %

Hydraulic conductivity (water flow velocity)

mix aiR	0.55 cm / second
---------	------------------

Chemical properties

pH	5.0-6.5
CE	3 (±1) mS/cm
